International Real Estate Valuation, Investment and Development: A Select Bibliography (Bibliographies and Indexes in Economics and Economic History) Valerie J Nurcombe

This volume fills an important gap in publications for the real estate professional by providing, for the first time, a clearly organized, current bibliography to the literature of real estate valuation. International in scope, the bibliography includes journal articles and books that deal directly with the subject of property valuation or with factors that affect valuation. Primary emphasis is placed on materials written specifically for a professional audience although publications aimed at the popular market are included when they cover significant topics otherwise poorly documented. Throughout, the focus is on literature published from 1975 forward.
