This easy-to-use resource prepares clinical laboratory scientists and clinical laboratory technicians for the certification and recertification examinations. An update of questions and answers reflects the most recent changes to the NCA exams. Organized by curriculum area, the book is subdivided into review questions for CLT and questions for CLS, with answers accompanied by rationales directly following the questions. The back of the book features two review tests for practice, for CLT and for CLS. An accompanying CD-ROM contains 500 practice questions.
