This is a summary of Dan Harris' 10% Happier: How I Tamed The Voice in My Head, Reduced Stress Without Losing My Edge, And Found Self-Help That Actually Works - A True Story and Winner of the 2014 Living Now Book Award for Inspirational Memoir After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Eventually Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America’s spiritual scene, and leaves them with a takeaway that could actually change their lives. Available in a variety of formats, this summary is aimed for those who want to capture the gist of the book but don't have the current time to devour all 256 pages. You get the main summary along with all of the benefits and lessons the actual book has to offer. This summary is not intended to be used without reference to the original book.
