Roots of Spanish: Coded Learning System Sweet Sounds of Reading
If I asked you what President Obama looked like, you and everyone you know, would automatically see an image of his face in your mind. Why? Because you have repeatedly seen that face on TV, the Internet or in countless pictures, you can automatically recall it with no effort. Instantly seeing mental images of words and automatic recall of Spanish phrases is the goal of Roots of Spanish. Although there are close to 500 words presented in this program, only mastering 138 of them to the point of automaticity, or reflexively thinking these words, is a necessity for future fluent Spanish speaking. However, thinking in Spanish will be easy for Roots of Spanish trained students, because of the 3 tiers of linked visualization methods repeated for each key word in this program. This coded learning system makes it possible for a Spanish learner to not have to spend energy trying to understand or make sense of foreign words and difficult language rules. By repeatedly seeing the same (verb) spelling patterns and gender colored word patterns, (blue for male, red for female), the learner quickly and effortlessly will be speaking in Spanish. This Book contains three Powerful Memory Tools: 1. Root Verb Family Trees (vocabulary builder) 2. Color Coded Gender Nouns (speaking fluency) 3. Mental Picture Stories/Spanish Mnemonics (foreign word mastery). All of the initial decoding and comprehension struggles of learning how to speak Spanish fluently has been taken care of in this simple visually coded learning system. Because of the unique memory tools, Roots of Spanish trained students don’t have to ever struggle memorizing complex grammar rules or have difficulty recalling 100’s of key Spanish words - days, weeks or years later.
