**Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library)** Zhizhang Chen, Gopal Gokeda, Yiqiang Yu
Direction-of-Arrival (DOA) estimation concerns the estimation of direction finding signals in the form of electromagnetic or acoustic waves, impinging on a sensor or antenna array. DOA estimation is used for location and tracking signal sources in both civilian and military applications. This authoritative volume provides an overview and performance analysis of the basic DOA algorithms, including comparisons between the various types. The book offers a detailed understanding of the arrays pertinent to DOA finding, and presents a detailed illustration of the ESPRIT-based DOA algorithms complete with their performance assessments. From antennas and array receiving systems, to advanced topics on DOA estimation, this book serves as a one-stop resource for professionals and students. It is suitable for electrical engineers whose work involves either civilian or military DOA estimation applications, as well as for graduate electrical engineering students in related courses.

**From reader reviews:**

**Lonnie Hammer:**

Why don't make it to be your habit? Right now, try to ready your time to do the important behave, like looking for your favorite guide and reading a guide. Beside you can solve your short lived problem; you can add your knowledge by the publication entitled Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library). Try to face the book Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) as your pal. It means that it can to be your friend when you really feel alone and beside those of course make you smarter than in the past. Yeah, it is very fortuned for yourself. The book makes you a lot more confidence because you can know everything by the book. So , we need to make new experience and also knowledge with this book.

**Kara Navarrete:**

Do you one of people who can't read gratifying if the sentence chained inside the straightway, hold on guys this kind of aren't like that. This Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) book is readable by simply you who hate those straight word style. You will find the facts here are arrange for enjoyable studying experience without leaving also decrease the knowledge that want to give to you. The writer involving Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) content conveys objective easily to understand by a lot of people. The printed and e-book are not different in the information but it just different available as it. So , do you continue to thinking Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) is not loveable to be your top checklist reading book?

**Paul Horn:**

The feeling that you get from Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) is a more deep you rooting the information that hide into the words the more you get interested in reading it. It does not mean that this book is hard to be aware of but Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) giving you enjoyment feeling of reading. The copy writer conveys their point in specific way that can be understood by simply anyone who read the item because the author of this publication is well-known enough. That book also makes your current vocabulary increase well. Therefore it is easy to understand then can go to you, both in printed or e-book style are available. We advise you for having this kind of Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) instantly.

**Margaret Watt:**

Reading a reserve make you to get more knowledge from it. You can take knowledge and information from the book. Book is prepared or printed or illustrated from each source that filled update of news. Within this modern era like currently, many ways to get information are available for anyone. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Are you ready to spend your spare time to spread out your book? Or just searching for the Introduction to Direction-Of-Arrival Estimation (Artech House Signal Processing Library) (Artech House Remote Sensing Library) when you needed it?
