And Other Propositions for an Allergy-Free World by Thomas Leo Ogren

Residential and commercial landscapes are loaded with male-only trees and shrubs since they are litter- and therefore maintenance-free. But given a choice, what would you rather do—sweep or battle hay fever? The fact that our urban forests have been propagated with male-clones is a crime on two counts: male plants are the pollen-producing offenders, and without female plants to absorb pollen, allergenic pollen counts are on the rise nationwide. In SAFE SEX IN THE GARDEN, horticulturist Thomas Leo Ogren explores this safe sex issue (plant sex, that is!), as well as many other allergy-related topics: organic gardening, protecting pets against allergies, handling allergy-related stress, and global warming's affect on allergies.
