Antebellum Armageddon: The Rise and Fall of Washington's Masonic Roman Empire Stephen Schroeder
The Fall of America is indeed an ‘intelligence’ failure…on a grand scale…because only a fool would give aid, assistance or preference to their own enemy…it would be ‘dumb’ to assist those who desire you dead, your Christian faith eradicated, and your Constitution mothballed…only a fool… or a traitor. Obama actually told the truth when he blamed his failure to properly respond to the Islamic States genocide of Arab Christians on an intelligence failure…because that is exactly what it was…and the consequence…the fall of America is due to the intelligence failure of making the fatal mistake of helping the enemy destroy America from within…by fast tracking Islamist into intelligence agencies and Fusion Centers…now making any rescue attempts of any American hostage impossible…thus making ransom guaranteed…continuing the financing of this Islamic State…as if providing American weapons to the Islamic State wasn’t enough…as if they didn’t know that the Islamist would overpower the Iraqi troops left to fend for themselves against such overwhelming odds as a junior varsity club according to Obama…no big deal…no threat. It’s odd that he wasn’t aware of the agenda of the Islamic State and it’s Caliphate…yet knew they were no threat…and that is the difference between an intelligence failure and ‘being surprised’ or ‘caught off guard’…because that is not knowing…and that is not the case with Washington…they knew what was going on, what would happen ‘if’…they knew and I know they knew, because I warned them myself…as you can witness for yourself in this book Antebellum Armageddon written in 2003…read the warnings and the responses that incriminate themselves.
This timely book also covers in detail how the fall of America began with the unlawful funding of the enemy via the Faith Based Initiatives, how they managed to pull off such a historic crime of the Century…and why it originated here in Indiana. The book also covers the contest between Michael and the Triple Goddess AKA the State of Indiana (Indiana was Apotheosized in 1961) and how the State failed to prevail. This non-fiction book also covers in great length the State Capitals Commandment Conspiracy…a dark secret of Indiana history…and even covers the unheeded warning delivered to the late Indiana Governor Frank O’Bannon who made the mistake of ignoring the warning and trying to restore what Michael had removed…to repeat the crime rather than repent of it…a fatal mistake indeed…an ‘intelligence failure’ for sure…but not because O’Bannon, like Obama didn’t know…because they did know what they were doing was wrong…they were warned and ignored the warning and so naturally when the consequences for making such a mistake become manifest…the guilty party tries to blame somebody else…tries to blame somebody for bad intelligence, or somebody didn’t let them know the truth…that they were ‘surprised’…but ‘surprise’ that is not the truth…this book is.
