The human body is a beautiful display of nature, and when children see pictures in a nature book, they will learn about the different systems that comprise the body as well as the various details that each person has. They can see how all of the systems work together to make up the entire body, functioning as one instead of separate parts. Children can make pictures of their own body and label the parts so that they understand how everyone is different as well as learn the names of the parts.
