Einstein, Me and the Grand Orginal Design: The Holy Grail of Physics Kenneth R. Stauffer PhD
The theme through out this book is my crusade to promote spirituality and denounce atheism! By Devine intervention and a proposed "Holy Grail Equation of Physics" I prove that spontaneous existence is impossible. , I would awake often to creative thoughts that would bring me to my station to jot down notes of a Grand Original Design (G.O.D.). The observable universe is created, it is not spontaneous as some atheistic physicist would have you to believe. Creation trumps spontaneity. I have amassed and unmasked concepts (here to fore) that have never been articulated. Physicist Michio Kaku and others ask in a video (How the universe Works)… What was there before the big bang? What banged? Where did it bang? When did it bang? Why did it bang? Who banged it'? "I want to know God's thoughts; the rest are details."—Albert Einstein My answers are as follows; I. What was before the Big Bang?-infinite singularities II. What banged? -two singularities III. Where did it bang? -in the center of our universe IV. When did it bang? - the first Planck tic of time V. Why?-so Souls could have a place to make choices VI. Who?-God, the creator of the Grand Original Design (G.O.D.) I do not want to get into the “weeds” with the complexity of the subject. I developed all concepts with high school mathematics and basic quantum and relativity principals. What I would like is to have readers buy into my view of the theory of everything through divine intervention and help get the word out for a paradigm shift away from spontaneity and more towards creation. The phrase "When you want something, the whole world will help you" written by Paulo Coelho in his book, "The Alchemist” is supported by space-time energy-particles (STEPs) synchronization. It might just turn out that the synchronization of STEPs is the mechanism of how the whole world can help you. Quotables--- “Creation trumps Spontaneity” or “The Observable Universe (OU) is to Eternity as Finite is to Infinity and Finite is to Atheist as Spiritualism is to Eternity.” Several potential Noble Prize concepts have resulted from this divine intervention and are theorized below. 1. Duality of the wave/particle concept mechanism. 2. Physical properties of the M theory’s 11 dimensions plus defined shapes for alternating Calabi-Yau geometry. 3. What Dark Energy (De)/ Dark Matter (Dm) are, and the Correlation of Dm and De by De= DmC2. 4. Neutron/Proton theory for the proliferation of matter. 5. “Spooky action at a distance” by synchronized space-time-energy-particles, STEPs. 6. Physical properties of the spin (twist) of matter particles and wormholes of space-time. 7. Graviton operation in the onion skin region of a STEP. 8. Eternal force splits off forces to manifest Dm, strong, weak, electromagnetic and gravitational forces plus the Higgs field. 9. The Holy Grail Equation of Physics, where the Eternal force is equal to dark matter times the acceleration of the cosmological constant. 10. The Grand Original Design, G.O.D. is a complete theory of everything, TOE.
