MakerBot For Dummies Wiley
MakerBot For Dummies is your indespensible companion for the MakerBot Replicator line of 3D printers. This soup-to-nuts guide helps you through all aspects of the Replicator hardware. It helps you understand the differences between the models while making a buying decision, guides you through the process of setting up your Replicator and keeping its firmware and software up to date, shows you how to change and refill filaments for 3D printing, and provides tips and processes to maintain your investment.

The book also walks you through the MakerWare software and provides guidance on what model designs will make strong, long-lasting 3D objects. Using the software, you to take your ideas from your imagination and produce them in the real world, including the abilty to create objects with multiple colors!

The book explains the MakerBot Thingiverse site, where you can choose to buy or download more than 300,000 print-ready objects, as well as upload and sell your own designs. With everything from useful items such as a bottle opener to rich educational materials like dinosaur fossils, models of the Great Pyramids of Giza, or math manipulables, to intricately designed jewelry that is impossible to produce without a 3D printer.

Series features: The information is presented in the clear, plain-English style, sprinkeled with icons highlighting tips, warnings, and interesting stories - presented with a touch of humor that has made For Dummies the top brand in consumer technology publishing for more than 20 years!

From reader reviews:

Frances Savage:

Throughout other case, little folks like to read book MakerBot For Dummies. You can choose the best book if you want reading a book. Providing we know about how is important the book MakerBot For Dummies. You can add information and of course you can around the world by way of a book. Absolutely right, because from book you can recognize everything! From your country right up until foreign or abroad you will find yourself known. About simple matter until wonderful thing you can know that. In this era, we could open a book or perhaps searching by internet system. It is called e-book. You may use it when you feel bored stiff to go to the library. Let's examine.

Dennis Stclair:

Book is definitely written, printed, or descriptive for everything. You can recognize everything you want by a book. Book has a different type. We all know that that book is important factor to bring us around the world. Adjacent to that you can your reading proficiency was fluently. A e-book MakerBot For Dummies will make you to be smarter. You can feel more confidence if you can know about every thing. But some of you think that open or reading a new book make you bored. It is far from make you fun. Why they can be thought like that? Have you seeking best book or suitable book with you?

Tara Cassell:

Book is to be different for every single grade. Book for children until finally adult are different content. As we know that book is very important for all of us. The book MakerBot For Dummies ended up being making you to know about other expertise and of course you can take more information. It is quite advantages for you. The publication MakerBot For Dummies is not only giving you much more new information but also for being your friend when you really feel bored. You can spend your spend time to read your book. Try to make relationship together with the book MakerBot For Dummies. You never truly feel lose out for everything when you read some books.

Karen Huff:

This MakerBot For Dummies is great reserve for you because the content which is full of information for you who also always deal with world and possess to make decision every minute. That book reveal it data accurately using great plan word or we can declare no rambling sentences included. So if you are read this hurriedly you can have whole data in it. Doesn't mean it only gives you straight forward sentences but hard core information with lovely delivering sentences. Having MakerBot For Dummies in your hand like having the world in your arm, information in it is not ridiculous one. We can say that no e-book that offer you world throughout ten or fifteen second right but this publication already do that. So , this can be good reading book. Hey Mr. and Mrs. hectic do you still doubt this?
