International Cultural Heritage Law (Cultural Heritage Law and Policy) Janet Blake
This book provides a comprehensive overview of the development of international cultural heritage law and policy since 1945. It sets out the international (including regional) law currently governing the protection and safeguarding of cultural heritage in peace time, as well as international cultural policy-making. In addition to analysing the relevant legal frameworks, it focuses on the broader policy and other contexts within which and in response to which this
law has developed.

Following this approach, attention is paid to: introducing international cultural heritage law and its place in international law generally; illicit excavation and the illegal trade in archaeological finds; protection of underwater cultural heritage; the relationship between cultural heritage and the environment; intangible aspects of heritage and their safeguarding; cultural heritage as traditional knowledge and creativity; regional approaches to protection; and human rights issues related
to cultural heritage. In addition, newly-emerging topics and challenges are addressed, including the relationship between cultural heritage and sustainable development and the gender dynamics of cultural heritage.

Providing both a perfect introduction to cultural heritage law and deeper reflection on its challenges, this book should be invaluable for students, scholars, and practitioners in the field.
