Medicines management for nursing practice: Pharmacology, patient safety, and procedures Graham Brack, Penny Franklin, Jill Caldwell
Medicines Management for Nursing Practice: Pharmacology, Patient Safety, and Procedures is a friendly guide designed to equip pre-registration and newly qualified nurses with the medicines management knowledge and skills to provide safe patient-centred care.

Balancing theory with practical advice, this accessible text covers basic pharmacology, drug calculations, key legislation and standards, and patient safety. Drawing from the most up-to-date sources of evidence and advice, including NMC and BNF guidelines, *Medicines Management for Nursing Practice* prepares nurses to promote their patients' safety, concordance, understanding of medicines, and wellbeing.

This book takes a lively and straightforward approach to a vital set of nursing skills. Learning features such as reflection points, exercises, and further reading help readers to develop and consolidate their knowledge. Chapters on pharmacology and drug calculations take a step-by-step approach and are supported by diagrams and examples to aid understanding. Case studies relate guidelines and theories to the common practical scenarios that nurses encounter on a day-to-day basis.
