SCHIZOPHRENIA: The NICE guideline on core interventions in the treatment and management of schizophrenia in adults in primary and secondary care ... (National Clinical Practice Guideline)
National Collaborating Centre for Mental Health (section of the Colleges Research Unit)
Sets out clear recommendations for healthcare staff (based on the best available evidence) on how to diagnose and manage adults who have schizophrenia, in order to significantly improve their treatment and care.

Commissioned by the (UK) National Institute for Health and Clinical Excellence (NICE).

This new edition is based on recent evidence about the use of some psychological and psychosocial interventions and antipsychotic drugs and new reviews of early intervention services.

Includes new chapters on access and engagement for minority ethnic groups and on service user and carer experiences.

The CD-ROM contains all of the evidence on which the recommendations are based, presented as profile tables (that analyse quality of data) and forest plots (plus, info on using/interpreting forest plots). This material is not available anywhere else.

Readership

Mental healthcare professionals, plus those providing and working in services for people with schizophrenia.

Related titles

RCPsych Publications have co-published all other titles in this series, the recent best-selling ones being: Attention Deficit Hyperactivity Disorder, from Mar 2009, ISBN: 978 1 854334 71 8 and Dementia, from 2007, ISBN: 978 1 854334 51 0.
