?Amazing young, French economist wrote an amazing 700 pages book which explains the inequality in modern economy. This book is packed with huge number of historical data and examples from France that support authors claims. Piketty makes a bold claim that invested capital, in stock market and real estate, will grow faster than incomes. Stating that implications of that are deep: in order to invest capital you must have money, and if you are relying on income you will never be able to do so and never will you catch up with already wealthy people. His findings are opening new debates and thoughts of future wealth and inequality.
