Scaling Up: How a Few Companies Make It and Why the Rest Don't is a guide for growing businesses successfully and profitably. It is the 2014 sequel to *Mastering the Rockefeller Habits* (2002), a book that derives contemporary business advice from the management style of John D. Rockefeller, the founder of Standard Oil. Some of the material from Rockefeller Habits is repeated in this volume, but you do not need to listen to that book to understand the concepts discussed in this one.

Please note: This is key takeaways and analysis of the book, and not the original book.
