Readings in Russian Poetics: Formalist and Structuralist Views (Russian Literature (Dalkey Archive))

Readings in Russian Poetics: Formalist and Structuralist Views (Russian Literature (Dalkey Archive))

Investigating the conceptualisation of structure and form within literature, the Russian Formalists affected both the creation of art during the 1920s and 1930s and the development of literary theory as a scientific discipline. Crucial to the understanding of this theoretical movement, this collection of essays by and about the Russian Formalists features work by: - Boris M. Eichenbaum ("The Theory of the Formal Method") - Viktor Shklvosky ("The Mystery Novel: Dickens's Little Dorrit") - Roman Jakobson ("On Realism in Art") - Mikhail Bakhtin ("Discourse Typology in Prose") - Osip M. Brik ("Contributions to the Study of Verse Language") A new introduction by Gerald L. Bruns provides a context for understanding why these works remain as important and influential now as when they were first written.
