Dr. Squeaks holds a dual British-American passport, which allows him access to parts of the world often closed to holders of one or the other. In this chronicle, which is in no particular order, you'll find:

- The secret to global warming
- The real reason Napoleon lost his empire
- Did H.P. Lovecraft really write just fiction?
- Can a fart kill?

You'll hear about the above and many other encounters I have had with farts all over the world.

Finally, he closes his chronicles with an account of a possible encounter with one of the urban legends spewed in the wake of the nuclear meltdown at Chernobyl.

Reordering the farting habits of humanity is a full-time chore, and he has traveled the globe studying and recording where the fart occurs.

Many of the occasions are humorous, some serious, and a few are actually terrifying. You'll meet 40 farts of the world that he has recorded specifics on for your amusement, education, and enlightenment.
