Chemistry of Variable Charge Soils (Topics in Sustainable Agronomy)

Chemistry of Variable Charge Soils (Topics in Sustainable Agronomy)
This book, based on research carried out at the Academia Sinica over the past 30 years, explains the basic difference between the variable charge soils of tropical and subtropical regions, and the constant charge soils of temperate regions. It will focus on the chemical properties of the variable charge soils--properties which have important bearing on soil management practices, including maximizing soil productivity and combating soil pollution.
