Metathinking: Judge For Yourself Richard Hogen
About this book: Part psychology, part sociology, part human systems engineering, and part sharing life experience, this "un-self-help" book will both challenge and empower you. This book will not define an ambiguous new terminology set and try to convince you that interpreting the world using it will make you happier and wealthier. Instead, it is a straight-shooting, rational breakdown of the pitfalls of human existence, why it's crucial to overcome them, with some practical, shareable methods for making progress, together. Judge for yourself. WARNING: You WILL be challenged by this densely packed book, and not everyone will be ready for every challenge presented.
